

## Riverside Bible Camp

### The Heart of a Pioneer Woman: Keynote Speaker Summary & Bio

**Keynote Sessions: 9:00-9:50, 3:15-4:00**

Keynote Speaker: Pam Wellbrock

Pam has been raising her family on a large hobby farm in central Wisconsin. In the evenings, Pam enjoys sitting out on the front porch, watching beautiful sunsets and her peacock as he fans his amazing feathers. In the summer months the entire family pitches in to raise organic vegetables, berries, grapes, apples, pears, and cherries. Living in this peaceful environment has been a wonderful blessing. Pam's interest in natural health started when she was a teenager. When other teens were eating burgers and fries, she was making smoothies

and working at the local natural food co-op. This early interest in natural health laid the foundations for her current career which is a ministry orientated business that focuses on helping people become healthier. Pam will be sharing her personal journey to better health during our main sessions.
